(813) 517-7210

Greenville, NC 27834

Meticulous developer offering 6+ years' experience in front end web development. Committed to not just writing programs that work but focused on best practices, readability and actively learning new technologies. Passion for mobile-first layouts & firm believer in test driven development to produce a streamlined user interface. Seeking to apply my abilities to adapt to new trends & collaborate with skilled work groups.

Core Competencies:

CSS3 | JavaScript | HTML5 | WordPress | Visual Studio Code | jQuery | SASS | Node.js GIT | GitHub | UI | UX |
Webpack | Accessibility | React.js | PHP | Dreamweaver | Photoshop | Adobe Cloud | Figma | Litmus | Slack |

PROFESSIONAL EXPERIENCE

Oracle (Remote)

Web & Email Developer, 06/2022 - Present

- Lead developer responsibility on 4 major corporate accounts, requiring status, strategy and client meeting attendance, preparing call out & training documentation & PowerPoint presentations, partnering with account managers, creating enterprise level templates & communicating changes to teammates
- Successfully programmed & maintained web survey forms & landing pages for both internal special projects & clients using JavaScript logic
- Solved complex rendering issues using coding solutions to improve user experience
- Transform creative assets into functional emails for major companies, including promotional, movie, monthly newsletter and milestone emails
- Mentored and conducted code reviews for developers on my team

Self-Employed Freelancer Developer Tampa, FL

Web Design / Developer Moderator, 02/2017 – 06/2022

- Wire-framed, designed & developed a professional website from inception to expand small business brand marketing to a broader internet audience
- Created & designed custom WordPress sites from scratch

JP Morgan Chase Bank, Tampa, FL

Redemption Extensions Analyst, 08/2017 – 06/2022

- Designed and managed spreadsheet to share best practices & troubleshoot scenarios not found in procedure guides; increased agent efficiency by 25%
- Maintained flawless quality & regulatory compliance standard by keeping a current knowledge of all bank policies, procedures and services

Edmonson Electric, Tampa, FL

Collections Manager, 08/2013 - 08/2017

- Learned collections protocols & created process from scratch, resulting in recovering approximately \$2 million in aged invoices over a 4-year period
- Established communications with billing agents on corporate accounts via email and phone to foster good relationships and timely payments

Power Design Inc, St Petersburg, FL

Project Engineer, 08/2011 - 08/2013

- Managed all aspects of labor & materials budget on 5 multi-million dollar projects which all completed by deadline and under budgeted cost
- Solved production concerns in collaboration with job supervisors and company executives
