PROFESSIONAL OVERVIEW

Results-driven Front-End Web Developer with 7+ years of experience delivering high-impact digital solutions for diverse clients, from small businesses to Fortune 500 companies. I specialize in responsive web and email development, leveraging JavaScript, HTML, and CSS to increase user engagement by 15% at Oracle and improve workflow efficiency by 25% at JP Morgan Chase. Seeking a challenging remote or hybrid role to apply my results-oriented mindset and technical skills.

PROFESSIONAL EXPERIENCE

LEAD EMAIL ASSOCIATE DESIGNER / DEVELOPER
Nutrafol, Remote | 2025 – present

- Develop 20–30 responsive HTML emails weekly as the sole developer; executed the brand's largest annual campaign under a tight deadline to help the retention team meet bonus margins.
- Refactored the core email module library to enforce DRY principles, simplify code readability, and increase build efficiency; build custom templates matching strict Salesforce guidelines.
- Optimized email template architecture for complex campaigns and flows, partnering with data teams to resolve dynamic data errors and currently executing the platform migration to Klaviyo.

LEAD WEB & EMAIL DEVELOPER
Oracle, Remote | 2022 – 2025

- Developed promotional emails, newsletters, and web career sites for Fortune 500 clients, increasing engagement by 15% and enhancing brand presence.
- Engineered and maintained over 30+ web survey forms and landing pages, leveraging JavaScript & jQuery logic to streamline workflows and improve user experience.
- Spearheaded development for high-profile corporate accounts, overseeing project lifecycles, and pioneering a dark mode accessibility initiative, facilitating team training on implementation strategies.

FREELANCE WEB DEVELOPER
Self-Employed, Remote | 2018 – 2022

- Designed and developed custom WordPress themes and plugins from scratch, implementing responsive design principles and modern JavaScript functionality for enhanced user experiences
- Created and designed custom WordPress sites from scratch while mentoring and conducting code reviews for beginning developers.
